

The Daily Gazetteer.

SATURDAY, JULY 15. 1738.

N^o 954.

Petersburg, June 11. O. S.

HE 5 or 6000 Families of Cuban Tartars that were subdued by the Gallant Don Duke Ombo, have been transported to the Neighbourhood of Burgusat, on the Frontiers of Cabardia, but they consist for most Part of Women and Children, the Calmucks having almost all the Men, to the Number of 7000, to the Sword. 'Twas thought last Year, that the General Laszy would have settled in the Crim, but our Flota was not strong enough then to second the Land Forces. This Year 'tis above twice as numerous; and there being moreover an Expectation of a Revolution in the Crim, 'tis not doubted but the General will make a Settlement both in the Isle of Taman, and on the opposite Coast of the Crim Country.

Vienna, June 26. O. S. Letters from the Imperial Army in Hungary say, that the Report of the Turks having retired from Slatina, and all the Posts and Defiles which they possessed on this Side of Orsova, and even of their withdrawing their Artillery from the Place, is a Story to which none but the Generals now how much Credit is due.

Stockholm, June 30. The General Dyet of the Kingdom proceeds, with great Unanimity, under the Direction of the Count de Tessin, its Marshal, who, tho' scarce 40 Years of Age, has gone through much Business as an old Man. He has been twice Envoy Extraordinary at Vienna, and at every Dyet he has fate in, he has been the principal Person in the Secret Committee, in drawing up the Plan which therein concerted for his Guide in Foreign Affairs. With all this Learning, Judgment and Experience, he has a Behaviour which makes him universally loved, and an Integrity which neither Fear nor Hopes can alter. The Dyet has appointed Committees to examine the Alliances concluded 2 Years ago with Denmark and Russia, and the Reasons why the Treaty of Alliance with France has not yet been renewed. A Committee is also appointed to inquire into the Grievances of the Protestants of Poland, who have had Recourse to his Swedish Majesty, to desire his Majesty to grant them his Protection, and to support their Interests with the King, and the States of Poland, at the next Dyet, which is to be held at Warsaw after the Feast of St. Michael. As to the Interests of the Duke of Holstein, 'tis probable they will not come upon the Carpet. This Prince has a numerous Party in the Kingdom, but they who are most disposed to second his Views, do not approve that he should challenge the Right of Succession to the Crown. 'Tis very well known that his Friends have wrote to him upon the Subject, and hinted, that as the Claim is generally considered as an odious Affair, no more mention ought to be made of it in the Letters which he shall write for the future to the States, than those to their Majesties.

Brussels, July 8. The States General continue to take Umbrage at the Works which are carrying on in France at the Canal and Port of Gravelin, and have order'd the Pensionary of the Province of Holland, to take a private Examination of those Works, and then to make his Report to some particular Members of the State, without communicating the same to the Assembly of their High Mightinesses, at the end that it may be concealed from the Notice of the Publick, much less from the Foreign Ministers, who have their Spies in all great Assemblies.

Amsterdam, July 11. N. S. 'Tis reckon'd that the demolition of the Mole and Dikes lately raised in the Neighbourhood of Dort, will cost as much as the building of those Works, which amounted to above 10,000 Florins. Baron Theodore went lately on board a Frigate of 52 Guns and 250 Men, which some private Men had freighted for him in the Texel, and carries a great Quantity of Ammunition. People are anxious to know what Course he is steer'd; for it can't be imagin'd that he will ever think of going again to Corsica, but rather to Tunis, to restore the Ammunition and Artillery to the young Bey, which he borrowed of him for the Conquest of Corsica.

The Whale Fishery in Greenland is like to be very

good this Year, Capt. John Simmonds being just arrived from thence in the Texel with a Lift, by which it appears, that before he came away, 19 Dutch Ships had taken 102 Whales; so that it they had as good Success afterwards, Oil and Whalebone will fall considerably in the Price.

A few Days ago Capt. Bruce and his Sister in-Law, driving through Colchester Lane, in Chelmsford, with a Chaise and Pair, turning too short the Corner of the said Lane, the Chaise struck against a large Stone fixed there, and was overturned, whereby the Captain had his Collar-bone broke, and his Sister bruised; the Horses being frighten'd, ran away with the Chaise which they broke in two, and tore the Harness all to Pieces; several Persons endeavour'd to stop them, but could not, for they ran with great Fury thro' the Street till they came to Maiden Lane, where one of them running into the Shop of Mr. White, beat him down, and bruised and kick'd him in so terrible a Manner that his Life is despair'd of.
